

SPECIALTY SPORT UNITS

GOLFER

Perhaps some of you never take your clubs out of the car, but here in Minnesota we need a place to store the equipment when the greens are covered white! This cabinet has two shelves for hats & shoes and a roll-out drawer for balls, tees, markers, etc.

Available in widths of 24, 32, & 36
heights of 72, 84, 96

GEAR

Plenty of storage for your baseball or softball player in the family with this cabinet, which features a closet rod for jerseys and shirts and three drawers for balls, shoes, & other equipment. We also include a hook for your favorite team hat.

Available in widths of 24, 32, & 36
heights of 72, 84, 96

FISHER

We had our FISHER cabinet on display and enjoyed watching the onlookers cringe as we closed the door on the rods stored there. Clever of us to cut the top back so the tips of the rods don't get clipped off, right? The shelves are cut at 1/2 depth, but there is still plenty of room for tackle boxes, minnow buckets, ice augers, tip-ups, and the like.

Available in widths of 24, 32, & 36
heights of 72, 84, 96

SKISNO

This cabinet gets split vertically for storage of skis on one side and gear on another. Our 72" tall version has a hole cut in the top for longer skis. Plenty of room for snowboards as well!

Available in widths of 24, 32, & 36
heights of 72, 84, 96

HOCKEY

Our Granddaddy Sports Cabinet! If you live with a hockey player, chances are you've had a whiff of the equipment. To help take the bite out of the smell, this cabinet features a louvered top & bottom. A fan can help force the air through the cabinet and dry the equipment saving money on gear cleaning costs!

Available in widths of 32, 36, & 40
heights of 72, 84, 96

MOTOR

If you're a "Harley Guy/Gal" or "Motor Head" than this cabinet is right for you. This cabinet is partitioned 60/40 with the closet rod on the wider side. The top & bottom is louvered to help evaporate moisture and dissipate odors. This, as well as the HOCKEY cabinet work great in the laundry & mud room as well!

Available in widths of 32, 36, & 40
heights of 72, 84, 96
